

Criminology

1. Find out about at least 3 **notorious serial killers** – it is important that you know about some famous crimes. Create a short presentation/information page about your chosen case study. You may like to share this with the class during our first week.
2. List different **types** of crimes you know about (e.g. white collar and technological crime). Give brief descriptions.
3. Explain possible **reasons** for unreported crime.
4. Find at least one example of a **media campaign** to raise awareness of unreported crime. For example, this might be in the form of a poster or a TV advert. Come prepared to share your example and give your opinions on the effectiveness of the campaign.

See you soon!
